

SUSTAINABILITY COMMITMENT POLICY

Zone 1 and Zone 3 Road Maintenance Services SA – 20C341 & 20C343

MISSION

Enhance South Australia's development, lifestyle, and community wellbeing through an effective, efficient, and sustainable transport system.

OUR COMMITMENTS

- Provide a Safe Road Network and minimise impact to the community and environment.
- Improve the efficiency of the road maintenance delivery by delivering value for money and committing to continuous improvement of sustainable performance.
- Improve Road Customer Experience by improving the state of road network and meeting customer expectations.
- Improve Road Asset Management Effectiveness by improving and developing asset management strategies and optimising performance. Preserve value of assets for future generations and create a restorative community project.
- Support economies and employment and maximise opportunities for local people and business, and disadvantaged workers.
- Positive environmental performance including minimising waste, optimise energy, water, and material use.
- Procurement of goods and services will consider sustainability aspects (environment, social, economic) and aim to minimise sustainable risk and maximise sustainable opportunities and benefits for the total life cycle.
