WHY PARTNER WITH DOWNER MINING EXPLORATION DRILLING?

We have the support and systems of one of Australia's leading mining contractors.
We have the right people with extensive in-country experience.
We have the drive, commitment and flexibility to deliver a quality result.

A STRONG VALUES-BASED CULTURE

We believe that our longevity and stable customer base can be largely attributed to the values that guide the way we do business. These include:

ZERO HARM

We are committed to working safely, taking care of each other and preserving the environment.

INTEGRITY AND ETHICAL BEHAVIOUR

We make every effort to be fair, honest, reliable and professional.

COOPERATION AND TEAMWORK

We are dedicated to working effectively with all stakeholders to deliver optimum outcomes.

VALUE CREATION AND CLIENT RELATIONSHIPS

We are focused on creating shareholder value and exceeding client expectations.

OUR PEOPLE ARE OUR ADVANTAGE

We will succeed through our diverse and engaged workforce, where our people are encouraged and developed to effect positive change.

INNOVATION

We willingly challenge conventional thinking and are passionate about inspiring positive change.

WE STRIVE FOR INDUSTRY- LEADING SAFETY PERFORMANCE AND INNOVATION

Our goal is to do every job well and every job safely.

Our partnership with Alton Drilling has seen us introduce innovative design features to drilling equipment to enhance operational safety without compromising performance.

We have operational risk assessment training modules for all of our equipment and employ Safety Specialists who understand what's required to achieve our objectives safely.

We support local communities through donations and sponsorships.

Our sponsorship of the Tabubil Cats has enabled them to compete in rugby union tournaments in Sydney and on the Gold Coast.

We support formal training programs for our National Workforce to recognise the skills they have and the value they add to our operations.

We have remote operation experience.

AN EXPLORATION DRILLING TEAM THAT DELIVERS

We have a highly skilled and experienced team with a decade of drilling experience in PNG. The team is strongly supported by top-line PNG national drillers, most of whom have been with us from the beginning.

Our policy of employing and training people from the local area ensures that this experience and expertise will continue to grow, and the local economy will reap the benefits into the future.

Our investment in our people in PNG has had flow-on benefits to the extent that we now have PNG fitters living in Australia, working at our open cut mining projects.

RELIABLE SUPPLY NETWORK

To help support this team, we have dedicated logistics and maintenance teams with extensive in-country experience.

The PNG and Asia Pacific zone can be a logistically challenging area to work in. That's why we've focussed on developing trusted and successful relationships with our PNG and Australian supply partners over the past decade. This enables us to deliver on our targeted outcomes, and ensure that we're also supporting the local businesses and communities where we work.

These partners currently include Alton Drilling, Sandvik Exploration, Australian Drilling Institute, Applus Velosi JDA and Imdex.

WE OFFER CONTRACT FLEXIBILITY

We tailor contracts based on specific customer and commercial drivers that often differ from project to project.

At Downer Mining Exploration Drilling, we back our ability to deliver the best results possible to every one of our customers.
